

## Review of the second quarter of 2015

Five busy months passed, summer is upon us and at Ripca we face a lot of changes: a new internal cloud-based IT infrastructure, new assortment boxes, and of course a lot of product development.

### Assortment Boxes

We are slowly changing our assortment boxes: all boxes will have a full color insert with picture and product description. The content of some boxes will also be altered. Special inserts with your own logo are possible when ordering higher volumes.

### Promotion

A new feature is added to our newsletter: from now on we will promote a product in each edition of the newsletter. This product will be offered under special conditions during a certain amount of time.

## Promotion

### ATS01

We would like to put our Automatic Tilt Switch ATS01 in the spotlight.

The switch has a gyrosopic effect can be used for different kinds of purposes (for example the trunk lid light, ride control or the Anti-lock Braking System)

For a special price of € 12,50 / £ 9,40 per piece the item is available now.

### WST10

When ordering 5 reels of cable (= > 100 meters) in July, August or September, order our WST10 with it and you will get this multifunctional stripping tool for free!

This promotion is valid for all orders invoiced until September the 30<sup>th</sup> and while stock lasts.

The tool allows you to strip wires from 0.5 - 6.00 mm<sup>2</sup>.

Add the WST10 to your order and we will charge € 0,- / £ 0,-.

### New Assortment Boxes

### Tilt Switch ATS01

Special offer: €12,50 / £9,40

### WST10

Special offer: free of charge!

# What can you expect from us?

## Switch panel SWP04

The new flexible switch panel, mentioned in the previous newsletter, is now ready for demo's.

If you decide to order 250 pieces or more, the switch panel itself can be produced in your own customized color(s). Also adding your logo is a possibility.

Customized programming of the buttons is possible, available on special request. Please contact us to discuss the possibilities.

We will have a first, limited, stock at the beginning of July.

## FHA-SML110

We are excited to offer you our new water proof 10-way fusebox. The box has a IP rating of 56 which means that it is splash proof. This 10-way fusebox comes with a transparent lid and has LED illumination which shows you if fuses are blown.

## EL1225 Elogic Battery Charger

This unit is a switching type voltage converter / charger intended for use on vehicles with a 12V electrical system to charge nominal 12V battery packs.

The unit has been designed with features to ensure trouble free operation with STOP START technology vehicles. The unit can deliver 25A continuous and 30A intermittent charging currents. The output profile can be changed to meet any customer specification such as SLA, AGM or GEL.

NEW: FHA-SML110
